Belgrade, Serbia

Education

Bachelor of Interactive Media Design

Metropolitan University

2022 - 2026 (Expected)

Expertise

Design: UI/UX, Typography, Layout.

Tools: Figma, Maya, Unity, Unreal Engine 5.

Language

Russian - Native

Serbian - C1

English - B1

KSENIJA KRIUKOVA

Interactive Media Designer

Profile

Interactive Media Designer with a strong foundation in Web Design, UI/UX, and 3D environment art. Specialized in creating immersive digital experiences by bridging the gap between 2D layouts and spatial 3D assets for real-time engines (Unity/Unreal Engine 5).

Experience

2024- Present

Freelance Interactive Designer | Commercial Projects

Commercial Projects

- 3D Production: Orchestrated full-cycle 3D asset creation in **Maya**, optimizing geometry and textures for high-impact visual rendering.
- UI/UX Systems: Engineered responsive interfaces and design systems in **Figma**, ensuring pixel-perfect layouts and intuitive user flows.
- Branding: Managed end-to-end design workflows, maintaining visual consistency from concept to final multi-format export.

2023 - 2024

Web Design & UI/UX Systems

University Projects

- Architecture: Developed complex web frameworks in **Figma** with a focus on typography-driven design and scalable grid systems.
- Documentation: Built comprehensive UI kits and component libraries, streamlining the hand-off process to development teams.
- Prototyping: Conducted iterative testing to refine functional prototypes, balancing modern aesthetics with user-centric performance.

2022 - 2026

Game Environment & 3D Assets

University Projects

- Environment Art: Modeled high-quality spatial assets, optimizing UV mapping and poly-count for real-time performance in **Unity**.
- Engine Integration: Executed scene composition and material setup, enhancing atmospheric quality and interactive gameplay.
- Optimization: Managed technical constraints (draw calls, budgets) to ensure smooth 3D performance in real-time engines.
